Course Description
The course covers the ecology of marine organisms and habitats with focus on how general ecological principles and those unique to the marine environment drive patterns and processes.

Prerequisite: Two semesters of Biology (BSC 2010 and 2011) or equivalents

Instructor
Dr. Donald C. Behringer, Professor
Email: behringer@ufl.edu
Office: Aquatic Pathology Laboratory, Emerging Pathogens Institute
Telephone: 352-273-3634
Office hours: Tuesday 1 – 2 pm, or by appointment

Mr. Lucas Jennings, PhD student (TA)
Email: lucas.jennings@ufl.edu
Office hours: Online by appointment

Student Learning Outcomes
At the end of this course, each student will have:

- Examined how ecological processes operate in the marine environment
- Compared how ecological concepts are unique and similar in the marine environment relative to terrestrial and freshwater ecosystems
- Assessed the function of the environment in the ecology of marine systems
- Developed hypotheses for the outcomes of biotic or abiotic perturbations on populations and communities based on understanding of the ecological processes
- Learned the organisms that represent the trophic levels of a marine food web and their interrelationships.
- Examined the role of time and space in marine ecological processes
- Discussed and debated contemporary issues in marine ecology such as conservation, climate change, and disease.

Course Meeting Times T 3-4, R 3

Texts/Readings
1. Primary literature (1 - 2 journal articles) will be assigned to supplement the material presented each week. The literature will be drawn from current or classic papers and be made available by at least the Friday prior to its coverage the following week. All assigned papers must be read and each student will be expected to participate in the discussion of the papers (see below for assignment details).
**Examples include:**

2. Readings from the following texts will supplement the material presented in class and be made available to students:

---

**Course Format, Policies on Attendance, and Make-up Exams**

**Course format:**
This course is intended to provide upper division undergraduate students with a broad overview of ecological principles operating in estuarine, nearshore coastal, and open ocean systems. The principles introduced will become increasingly complex and interwoven, highlighting the multiplicity of processes driving the patterns observed.

Students will initially be introduced to important primary producers and secondary consumers in each of these systems. Insights into physiological and population levels of organization will build on these basics. Environmental factors that influence species-specific and population-level interactions will be discussed as a transition to the concepts of community organization. All of this material will form a foundation for explaining how the structure and function of communities is maintained over different temporal and spatial scales.

The course will incorporate multiple modes for presentation of the subject matter with class discussion. Upon conclusion of each chapter or subject the class will critically discuss primary literature provided by the instructor. Students will be assessed on participation.

**Course delivery:**
This course is co-taught at the undergraduate and graduate levels. Undergraduate students are expected to interact with the graduate students through class discussions and presentations, and are encouraged to seek out graduate students for assistance and guidance. This practice will increase learning for both groups and raise the intellectual caliber of the course.

**Attendance Policy:**
Regular attendance is expected at all class meetings. Students who miss class are responsible for acquiring the materials and assignments missed.

**Make-up Policy:**
Students must request permission to make-up an exam prior to missing the exam. If prior permission is not granted the student will receive 0 points for the exam. Late assignments will not be accepted without prior consent of the instructor. Extenuating circumstances or situations that fall within university policies (see
Assignments

Critical Thinking Questions:

Critical thinking questions will be posted on set Fridays and students will be required to answer the questions by the following week (see due dates on schedule below). The questions will be drawn from either the lecture material or the assigned reading from the previous weeks. The nature of the questions will vary, but will take the materials and concepts covered in class and require the students to adapt and apply that knowledge to solve a problem, plan a research/management approach, or provide a detailed answer, but with a system or problem that is different than discussed in class. The use of creativity and abstract reasoning will be expected. Responses must be submitted via Canvas by 10 pm on the due date. See schedule below for due dates.

Literature Discussion:

We will dedicate 20 – 30 minutes during most class meetings to group discussion of the primary literature assigned for that week. Students will be expected to have read the literature and participate in discussions. Students will be expected to participate actively (e.g., comment, question, or answer) in at least 10 discussions and will receive 5 points per discussion for a maximum of 50 points.

Exams:

Exam 1 will cover all of the material presented to that point.

Exam 2 will cover all of the material presented in the course (~75% post-Exam 1).

Evaluation of Student Learning

<table>
<thead>
<tr>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>100</td>
<td>Exam 1</td>
</tr>
<tr>
<td>100</td>
<td>Critical thinking questions (4 @ 25 points each)</td>
</tr>
<tr>
<td>50</td>
<td>Participate in primary literature discussion (10 @ 5 points each)</td>
</tr>
<tr>
<td>100</td>
<td>Exam 2</td>
</tr>
<tr>

Other Information

Important Information
This course includes face-to-face sessions. During all face-to-face activities, the following public health and safety protocols are encouraged of all students, instructors, and teaching assistants:

Optional: wear a face mask indoors
Wash hands (>20 sec) before and during class.
Maintain responsible physical distancing at six feet.
If you feel sick or have symptoms, stay home.

If you are experiencing COVID-19 symptoms please use the UF Health screening system and follow the instructions on whether you are able to attend class. Course materials will be provided to you with an excused absence, and you will be given a reasonable amount of time to make up work.
POLICIES AND REQUIREMENTS
This syllabus represents current plans and objectives for this course. As the semester progresses, changes may need to be made to accommodate timing, logistics, or to enhance learning. Such changes, communicated clearly, are not unusual and should be expected.

ABSENCES AND MAKE-UP WORK
It is the responsibility of the student to access on-line lectures, readings, quizzes, and exams and to maintain satisfactory progress in the course. Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx

Computer or other hardware failures, except failure of the UF e-Learning system, will not excuse students for missing assignments. Any late submissions due to technical issues MUST be accompanied by the ticket number received from the Helpdesk when the problem was reported to them. The ticket number will document the time and date of the problem. You MUST e-mail your instructor within 24 hours of the technical difficulty if you wish to request consideration. For computer, software compatibility, or access problems call the HELP DESK phone number—352-392-HELP = 352-392-4357 (option 2).

SEMESTER EVALUATION PROCESS
We are always looking to improve the course experience and student assessments of instruction is an important part of our efforts to improve teaching and learning. We want to ensure your ideas are heard, so please be encouraged to fill out the student assessments offered for the course. At the end of the semester, students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

ACADEMIC HONESTY AND STUDENT CONDUCT
As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.” The principles guiding the UF honor and conduct codes are guided by principles of respect for people, property, fairness, laws, regulations, and academic integrity. You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g., assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will
not be tolerated. Violations will be reported to the Dean of Students Office for consideration of
disciplinary action. For more information regarding the Student Honor Code process, please see
http://www.dso.ufl.edu/sscr/process/student-conduct-honor-code and for the most up-to-date version
of the student honor code and student conduct code, please see

NETIQUETTE (COMMUNICATION COURTESY): All members of the class are expected to
follow rules of common courtesy in all email messages, threaded discussions and chats, guided by the
UF principles of respect. Failure to do so may result in loss of participation points and/or referral to
the Dean of Students’ Office.

SOFTWARE USE
All faculty, staff and students of the university are required and expected to obey the laws and legal
agreements governing software use. Failure to do so can lead to monetary damages and/or criminal
penalties for the individual violator. Because such violations are also against university policies and
rules, disciplinary action will be taken as appropriate. Misuse of software is outlined in the student
conduct code found here https://sscr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/

SERVICES FOR STUDENTS WITH DISABILITIES
If you have any kind of disability, whether apparent or non-apparent, learning, emotional, physical, or
cognitive, and you need some accommodations or alternatives to lectures, assignments, or exams,
please reach out to the Disability Resource Center to discuss reasonable accommodations for your
access needs. The Disability Resource Center coordinates the needed accommodations of students
with disabilities. This includes registering disabilities, recommending academic accommodations
within the classroom, accessing special adaptive computer equipment, providing interpretation
services and mediating faculty-student disability related issues. Students requesting classroom
accommodation must first register with the Dean of Students Office. The Dean of Students Office
will provide documentation to the student who must then provide this documentation to the
instructors when requesting accommodation. You are also encouraged to reach out to the instructors
to discuss ideas for reasonable accommodations for your access needs.
0001 Reid Hall, 352-392-8565, https://disability.ufl.edu/

CAMPUS HELPING RESOURCES
For issues with technical difficulties for e-learning in Canvas, please post your question to the
Technical Help Discussion in your course, or contact the UF Help Desk at:
● Learning-support@ufl.edu | (352) 392-HELP - select option 2 | http://elearning.ufl.edu
● Library Help Desk support http://cms.uflib.ufl.edu/ask
● SFRC Academic Hub https://ufl.instructure.com/courses/303721

INCLUSIVE LEARNING ENVIRONMENT
We strive to develop and maintain a classroom that values and includes people with diverse
backgrounds, beliefs, and life experiences, promote equitable opportunities through the work we
conduct, and make continuous efforts to review, self-critique, adapt, and improve. This course
embraces the University of Florida’s Non-Discrimination Policy, which reads,

The University shall actively promote equal opportunity policies and practices conforming to
laws against discrimination. The University is committed to non-discrimination with respect
to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and
expression, marital status, national origin, political opinions or affiliations, genetic
information and veteran status as protected under the Vietnam Era Veterans’ Readjustment Assistance Act.

If you have questions or concerns about your rights and responsibilities for an inclusive learning environment, please speak with any of the instructors or TA or refer to the Office of Multicultural & Diversity Affairs website: http://multicultural.ufl.edu.

LAND ACKNOWLEDGMENT
This course is taught in the historic territories of the Timucua, Seminole, and crossroads of the Native American peoples who long inhabited this land. We honor and acknowledge the land and waters themselves as well as the people who have stewarded it for generations. We are called to continue to learn about the history of the systems we study as well as consider their future.

STUDENT LIFE, WELLNESS, AND COUNSELING HELP
We encourage students to take care of their health and wellness. Mental health and wellness can affect how we think, feel, and act as we cope with life and may impact success as a student. Struggles with mental health are common—more than half of all Americans will be diagnosed with a mental disorder at some time in their life. Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university’s counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.

- U Matter We Care, www.umatter.ufl.edu/
- Career Resource Center, First Floor JW RU, 392-1601, www.crc.ufl.edu/

STUDENT COMPLAINT PROCESS
The School of Forest Fisheries & Geomatics cares about your experience and we will make every effort to address course concerns. We request that all of our online students complete a course satisfaction survey each semester, which is a time for you to voice your thoughts on how your course is being delivered.

If you have a more urgent concern, your first point of contact should be the SFRC Academic Coordinator or the Graduate/Undergraduate Coordinator for the program offering the course. You may also submit a complaint directly to UF administration:

- Students in online courses: http://www.distance.ufl.edu/student-complaint-process
- Students in face-to-face courses: https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/
