Come celebrate the 10th year of synergies and positive interactions!
*oral presentations * poster session * banquet * student awards*

**Keynote speaker: Dr. Brian Silliman, Duke University**
“Marine ecosystem restoration in the Anthropocene”

Dr. Silliman is the Rachel Carlson Distinguished Professor of Marine Conservation Biology. He has been named a Distinguished Fulbright Chair with CSIRO, a Fellow of the American Association for the Advancement of Sciences, a Visiting Professor with the Royal Netherlands Society of Arts and Sciences, and David H. Smith Conservation Fellow with The Nature Conservancy. His teaching and research are focused on community ecology, conservation and restoration, global change, plant–animal interactions, and evolution and ecological consequences of cooperative behavior. We welcome back Dr. Silliman who was a founding organizer of the North Florida Marine Science Symposium!
